+ Introduction

I am a digital design professional seeking employment with a fun and progressive company. I am not afraid to think outside the box (unlike my cat Charlie here)! I am looking for a creative position that utilizes my skills to their fullest potential.

+ Software Skills

Adobe Photoshop	Adobe Illustrator
Adobe Dreamweaver	Adobe Muse
Adobe InDesign	Adobe Acrobat

+ Education

I have a Digital Design for Print & Web Diploma from Excel Career College, completed June 2011. I have taken business and marketing courses through Community Futures and Marie Forleo's B-school. I enjoy ongoing education and am constantly learning new things via online courses.

+ Art Career

I've made art my career since 2003 and have had gallery exhibits throughout Vancouver Island and in Vancouver. I have been interviewed for magazine articles as well as on TV and have also taught art to children at various grade levels. I also work closely with our local Comox Valley Exhibition and have created a lot of their branding materials. My passions include creating art in both physical and digital forms, illustrating childrens books and designing mobile applications.
